PSHE Curriculum Vision

"Be the change you want to see in the world"

Mahatma Gandhi

At Capel St Mary CEVC Primary School our vision of personal, social and health education (PSHE) enables our children to become healthy, independent and responsible members of a society. It aims to help them understand how they are developing personally and socially, and tackles many of the moral, social and cultural issues that are part of growing up. We provide our children with opportunities for them to learn about rights and responsibilities and appreciate what it means to be a member of a diverse society. Our children are encouraged to develop their sense of self-worth by playing a positive role in contributing to school life and the wider community.

Intent:

Through our Christian Faith and values, our curriculum has been designed to ensure every child can ' live life in all its fullness'. We believe in lifelong learning, aiming to equip our children to live life today and for tomorrow, with Christian values at its heart.

By developing individual and collaborative learning experiences, a positive growth mind set and a sense of responsibility, we will develop outward looking pupils who are able to engage in learning about themselves and have an understanding of the wider world.

Our curriculum drivers have led the development of our PSHE curriculum:

C*are*
A*chieve*
P*ersevere*
E*njoy*
L*earn*

Care

As a Church of England primary school it is important to us that our children develop an awareness and respect for all communities and an appreciation of the environment we live in.

Achieve

We want our children to be able take on any challenge that is given to them. Our children aspire to be the very best that they can possibly be and inspire other to do the same.

Persevere

Our children will be encouraged to be resilient learners. We will develop rounded young people who will not be afraid to take risks and accept challenges.

Enjoy

Children at Capel develop a lifelong love of learning. It is vital that children enjoy what they do so that they have the desire and motivation to succeed.

Learn

We nurture the natural curiosity of our children, enabling them to become independent in thought and action and encouraging them to imagine, enquire and become increasingly enterprising.
